

CSSS.NET

Local Business Gains National Recognition

Bellevue, NE, March 31, 2006 In recognition of the economic power of multicultural businesses, DiversityBusiness.com, the nation's leading multicultural internet site, recently named CSSS.NET as one of the top 100 diversity-owned businesses in the United States (Div100).

About CSSS.NET

CSSS.NET provides IT engineering services and solutions nationwide. Founded in 1997 by Lisa Wolford, President and CEO, CSSS.NET is a SBA certified 8(a) small disadvantaged business (SDB), woman owned business (WOB), and service disabled veteran owned business (SDVOB). CSSS.NET began operations by providing leading-edge IT solutions and processes to the commercial sector and transitioned almost exclusively to the government sector in 2002. To support federal government and nationwide business, the firm opened a second office in Arlington VA in 2005. The company has experienced greater than 400% growth over the last two years.

The firm's aggressive pursuit of new business, both in the Omaha metropolitan area and nationally, is at the forefront of the company's success. The firm provides high-quality jobs, valuable products, much-needed services, and generates economic growth for the surrounding community. CSSS.NET is well known by customers, business partners, and employees for its high ethical standards, mission/goal-oriented approach to business, and a clear drive to do that which is right to do.

The Div100 is the 6th annual listing of the Nation's top 100 diversity-owned businesses. Ranging in revenue size from \$62,400,000 to over \$2,500,000,000 the companies listed on the Div100 represent the Nation's top multicultural earners and challenge the long-held notion that a diversity-owned business is small or insignificant. Div100 members are sought after by major corporations wishing to increase spending with diversity owned companies.
